## CONGRESSMAN COOPER'S VIEWS.

The Tariff Law Will Fail to  
Raise Enough Revenue and  
in Eighteen Months Bonds  
Will Have to Be Issued.

Galveston News.

Woodville, Tyler Co., Texas,  
Aug. 1.—Congressman S. B.  
Cooper returned home from  
Washington yesterday and was  
heartily welcomed by his many  
friends here. The News cor-  
respondent met him this morn-  
ing. Among other things he  
said:

"The work of the last session  
of congress will result in injury  
to the country, but in benefit  
to the democratic party. The  
tariff bill passed will prove  
more hurtful and vicious than  
the obnoxious and repudiated  
McKinley bill. It will be hurt-  
ful because the rates of taxa-  
tion are higher and more in-  
juriously discriminating than  
in any former bill. The con-  
sumers will have to pay more  
for what they use than hereto-  
fore, and its inequality is pa-  
tent and painful in the duties  
placed upon necessities and  
luxuries. The tax on neces-  
saries and articles used by the  
great mass of people is almost  
criminally high, while the tax  
on luxuries is not proportion-  
ately raised, and by reason of  
the inequality and high pro-  
tective duties I predict that the  
revenue raised by the bill will  
be less than that raised by the  
Wilson bill, and in consequence  
in less than eighteen months  
you may look out for more  
bond sales. This result would  
be certain were the treasury not  
protected by a surplus of about  
\$140,000,000 now in the treas-  
ury and put there out of the  
proceeds of Mr. Cleveland's  
bond sales. The secretary of  
the treasury has been trying to  
impound the greenbacks to  
protect the gold reserve; but he  
will find with the small revenue  
brought in by the present bill  
that that this can not be done,  
and the government will again  
be at the mercy of the rapacity  
of the money changers.

"The protective duties are  
so high that they will be pro-  
hibitive, and hence importa-  
tions will lessen and interna-  
tional trade will dwindle. A  
very vicious feature of the bill  
is its tendency to encourage  
and support trusts and com-  
bines, and the vice seems to  
have been intended by the re-  
publican party, because they  
persistently and consistently  
with their purposes refused to  
let the bill be amended so as to  
hamper, prevent or destroy  
trusts."

Congressman Cooper was ask-  
ed why there was no currency  
legislation passed by congress  
and he said:

"A farcical effort was made  
in that direction in the closing  
hours of the session. The presi-  
dent knowing that the issue  
upon which he was elected was  
money and currency, and know-

ing that he and his party had  
subrogated this paramount  
question to the tariff, proposed  
to cast a sop to the people by  
sending in a message asking  
authority to appoint a commis-  
sion to deal with the currency.  
While the house was held up  
by the committee on rules and  
the minority gagged by the  
majority, and the bill passed  
in the house, still no one, not  
even the president, expected it  
to become a law. The idea is  
un-American and the law would  
be ineffective. The people yet  
believe themselves capable of  
self government in wisely select-  
ing representatives to legislate  
for them, and they will not ab-  
dicate their power or relegate  
to commissioners appointed by  
their agents the duties and  
power entrusted to their rep-  
resentatives. We have seen and  
had enough of commissions.  
We had one affecting the pres-  
idential office, the stretch of  
which rose to heaven."

"What is the future outlook  
for the democratic party?"

"Never more encouraging.  
The tariff bill and the duplicity  
of the republican party will be  
its requiem song. The people  
will forgive and forget the mis-  
takes of parties, but they will  
not pardon treachery and ro-  
bery. The republican party has  
been treacherous to the voice  
and command of its supporters  
at the last election, and has  
passed a law that will rob them  
of the product of their toil for  
the benefit of a few, and will  
therefore justly receive the  
signal condemnation of the peo-  
ple at their first opportunity."

Mr. Cooper's friends feel that  
no representative for years has  
done as much for this district  
as he has done.

## JAPANESE GETTING THEIR MONEY.

Drew £250,000 From the Bank  
Of England Yesterday.

New York, July 31.—The  
Evening Post's London corres-  
pondent telegraphs the follow-  
ing to-day: Two hundred and  
fifty thousand pounds in Japan-  
ese money was released from  
the Bank of England today.  
This neutralizes any effect of  
the extra demand for money at  
the end of this month. It is un-  
derstood that the first portion  
of the Japanese bonds recently  
issued here have just been ship-  
ped from Japan to London.  
Coming thus, in installments,  
it looks as though the four mil-  
lions ordered may be removed  
gradually from the bank, and  
not suddenly, but I can not say  
definitely.

The Austrian demand for  
gold is still strong. All arrivals  
of sovereigns for next Tuesday  
from Australia have already  
been bought up.

The United States Alaska  
gold company with an author-  
ized capital of \$1,000,000, has  
been incorporated in New Jer-  
sey. It is formed for the pur-  
pose of mining gold in the  
Klondike fields.

## RAID ON HAVANA CONFIRMED

By Passengers Who Left That  
City by Plant Line Steamer  
July 31.

Tampa, Fla., Aug. 1.—The  
story telegraphed from Havana  
last week about an attack by  
insurgents on the suburbs of  
that city is confirmed by pas-  
sengers who left Havana on the  
Plant line steamer Mascotte  
yesterday and arrived here to-  
night. Among the number was  
Senor Calbarjer, a wealthy  
Spaniard, his wife and daugh-  
ter, who are now to be reckon-  
ed among the refugees who  
have fled from Havana. The  
attack referred to was made on  
the little village of Maranano,  
about ten miles southwest of  
the city, and the terminus of  
the antiquated and dilapidated  
Maranano railroad.

Senor Calbarjer was an eye-  
witness of the raid. He said the  
attack was made by Costa,  
Baldomero, Juan Del Gado  
and Hernandez. The insurgents  
left 500 of their troops outside  
the town and carried 300 to the  
attack. They were well armed  
with dynamite rapid fire guns  
and met with but slight resist-  
ance. The engagement was  
short and desperate. Forty-nine  
Spaniards were killed and 120  
wounded; two Cuban were kill-  
ed and forty wounded. The in-  
habitants of the town fled for  
their lives, leaving the insur-  
gents in complete possession.  
They stayed in the place and  
secured \$40,000 in gold, besides  
a large quantity of supplies that  
they could store away.

Other passengers tell about  
the same story of the affair.

Senor Calbarjer says the  
wildest terror reigns in Havana,  
and that the well-to-do inhabi-  
tants are leaving as fast as local  
laws will permit.

## GRAVE CHARGES MADE

AGAINST TRANSVAAL.

London, August 2.—The cor-  
respondent of the Daily Tele-  
graph at Johannesburg says:  
Grave charges are being for-  
mulated against the Boers. The  
first is that of supplying the  
Matabeles, before and after the  
Jameson raid, with large quan-  
tities of guns and ammunition  
bearing the stamp of the Trans-  
vaal government. The second  
charge is that several high  
Boer officials, while the reform-  
ers were in prison, accepted  
large sums of money aggregat-  
ing £25,000, from the reform  
committee or from friends of  
its members.

## REPUBLICAN COM- MITTEE AT WORK

Washington, D. C., July 30.  
—The republican national  
committee is maintaining its  
headquarters here during the  
summer and keeping a force  
employed at work getting out  
documents in those states  
where their campaign next fall  
will be of a national character.  
The states are Ohio, Maryland  
and Iowa.

Celebrated for its great leavening  
strength and healthfulness. Assures the  
food against alum and all forms of adul-  
teration common to the cheap brands.

## LONE STAR LINE REDUCING RATES.

George Kindel Declares Colo-  
rado Shippers Should Sup-  
port the Line.

Houston, Texas, July 29.—

A rate war is on between New  
York and Galveston. The Mal-  
lory line vows it will not allow  
its new rival the Lone Star  
line, to live. The latter with  
four large steamers ranging  
from 4500 to 5500 tons, says  
it is in the field to stay. The  
result is that rates have been  
cut on the first three classes to  
10 cents per 100 pounds. First  
class formerly was 80 cents.  
Houston and all Texas points  
are getting the benefit of the  
cut. Colorado and all western  
points should be given some  
advantage. The merchants  
here and in Galveston have  
decided by preamble and res-  
olutions to stand by the Lone  
Star line. Denver's rate, which  
has ruled for some time at  
\$2.29 per 100 should now be  
70 cents less, or \$1.59 per 100  
on first class. It behooves our  
Denver and Colorado ship-  
pers to join our Texas neigh-  
bors in supporting the new  
line, which in all likelihood will  
break the combine of the Mc-  
gan and Mallory lines, so long  
existing to our detriment in  
the west. Further particulars  
on first train home.

Geo. J. Kindel.

A hail storm in South Da-  
kota is said to have complete-  
ly destroyed 1,000,000 acres  
of crops on July 30.

Prince Bismark denies that  
he intends to visit Count von  
Waldersee at Altona to meet  
Emperor William.
